

## DON'T MISS OUT - REGISTER NOW FOR FASTER BROADBAND!

Whether you want to just browse, email, enable remote video surveillance, file share, or online game – faster broadband could be on its way.

Look at what you could achieve at home with better broadband speeds:

BROADBAND SPEED	THIS SPEED IS SUITABLE FOR...
250K to 1.5Mbps	Basic e-mail, web browsing
1.5 to 3Mbps	Streaming music, standard definition video, remote surveillance, telecommuting
3 to 6Mbps	File sharing (small/medium files), internet TV (iPlayer, 4OD etc)
6 to 10Mbps	Online gaming, streaming movies online, instant web page loading
10 to 25Mbps	Telemedicine, remote education, High Definition (HD) internet TV
25 to 50Mbps	HD video surveillance
50 to 100Mbps	Video conferencing (multiple users), remote supercomputing
100Mbps +	Real-time data collection, real-time medical image consultation

Devon and Somerset County Councils are working to bring faster broadband to rural areas and have secured money from the government with two main aims-

**Improved broadband (>2Mbps)** to every household and community across Devon and Somerset by 2015

**Superfast broadband (>24Mbps)** to at least 85% of the area by 2015, with 100% by 2020

**Make your voice heard, either by phone: 0844 463 6887  
or online in a brief (3 mins) survey:**
